HELP THE PLANET

We are first and foremost citizens. In order to preserve our beautiful planet, the Hôtel de l'Europe acts on its own scale. We believe that the chosen sobriety is not only the prerogative of the house, it can also be inserted in the universe of comfort and pleasure that is the hotel business. But what are our commitments ?

PLANT FOR THE PLANET

- Plant a tree for every air-conditioned room sold to limit our carbon footprint. In 2022, 1200 trees were planted.
- Do not use pesticides for our exteriors. Instead, rolling up our sleeves and digging seem to be the most appropriate solutions.
- Leave part of the garden fallow to encourage local biodiversity. Oh...a butterfly !

"ECO-LOCO" CONCEPTION

- The hotel is equipped with 100% made in France, from the living room to the bathroom, including every room.
- We use eco-labelled cleaning products.
Nothing better than grandma's white vinegar !
- Our gym is equipped with wooden equipment.

HEALTHY MEALS

- Everything is homemade, from our jams to our cakes and so much more...
- We prioritize buying products from producers of the region to avoid unnecessary kilometers.
- We offer you a healthy, balanced and high quality food.

Environmental charter

HELP THE PLANET

TRAVEL TO POITIERS

- We provide you alternative modes of transportation such as an adequate parking for bicycles and electric vehicles.
- We promote the local economy by advising our customers on nearby activities.

A LITTLE REMINDER

- We would like to remind our clients that, although it is part of the service, the consumption of resources or the cleaning of sheets/towels has an environmental cost.
- We provide waste separation bins to both clients and staff.
- We donate our unused and still in perfect condition equipment to the Association de la Regratterie (86).
- We revalue the used soaps of the establishment in partnership with SapCycle Association.
- We participate in projects that are important to us : cultural and sports sponsorships (3x3, Orchestre des Champs Elysées, Women's International Tennis, ...).

The Hôtel de l'Europe
is currently in the process of
obtaining the Clef Verte Label.
